LEARN MORE

Our Learning Philosophy

With a 30-year history of exceptional language development, our learning philosophy focuses on three key areas that ensure our students are supported and have the tools they need to learn how to use English in meaningful ways in their lives.

Enriching Learning Environments

Academic success, progression, and a welcoming environment are at the heart of our language schools.

- Weekly counselling, bi-weekly 1:1 progress reviews, and Personal Study Plans and assessment help keep students on track and progress quickly.
- In-house accommodation programmes including homestay and other services ensure students feel safe and welcome.
- An excellent nationality mix across all our schools helps introduce students to new cultures and create a dynamic learning environment.

Continuous Learning

Learning with Oxford International doesn't end in the classroom.

- Our lively social programme allows students to enjoy, learn, and practice their English skills through tours, social events, and premier attractions.
- Study Club provides personalized learning opportunities to maximize student progress.
- Career readiness and preparation resources prepare students for today's competitive workplaces through skill development like resume building, cover letter writing, career goal setting, and more.

Premium Academic Quality

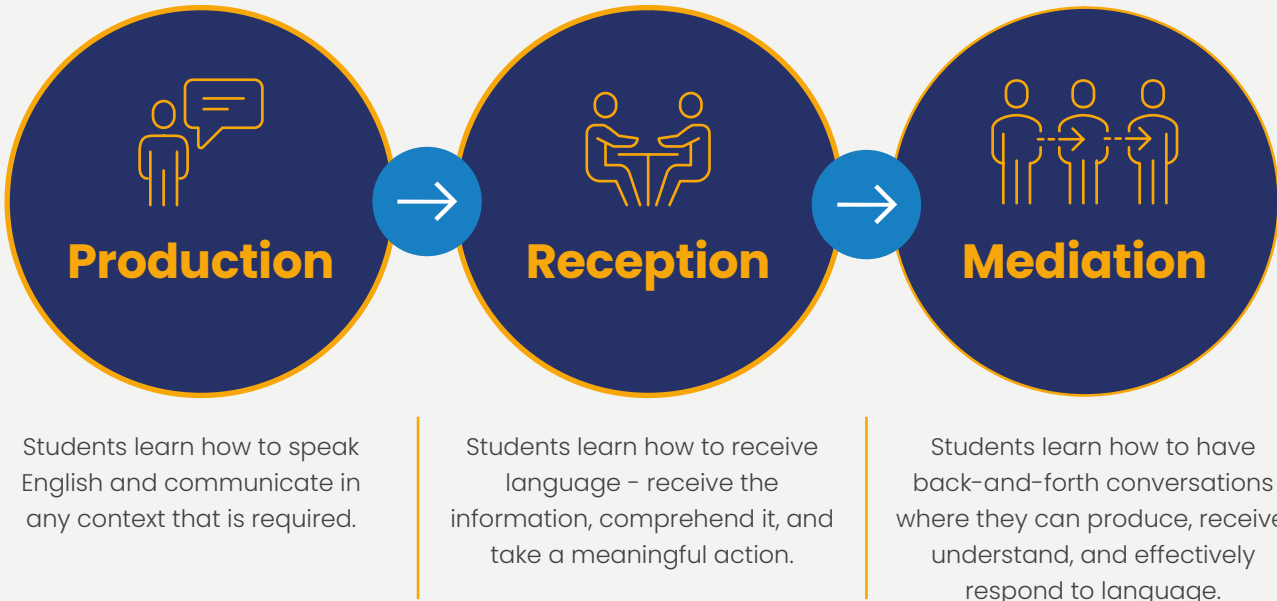

When students study with us, they develop English language skills for use in today's world.

- We focus on English for use in the 21st century to ensure students' varied English language learning goals are met.
- Our educators have a wide range of teaching experience and certifications, bringing quality instruction to the classroom.
- We exceed the educational standards set for independent schools with governing bodies in the UK, Canada, the USA, and Australia.
- Students use the Virtual Learning Classroom (VLC) to access their engaging course material and receive just-in-time access to their course performance and language progression.
- Quarterly in-house quality control checklists ensure an environment of learning excellence.

Our Learning Philosophy

Our learning philosophy presents a modern twist on the best language proficiency methods:

The Oxford International Student Journey

1

FIRST DAY AT SCHOOL

Students receive a warm welcome at their accommodation, and personally meet with the School Director of Studies, support staff, and instructors. They also enjoy a welcome tour of the school and local area, as well as receive information on supporting programmes and special activities they can enjoy during their time with us.

PERSONALISED STUDY PLAN

Our instructors provide continuous feedback and opportunities for students to identify their own strengths and areas for improvement, building student confidence and their ability to become independent learners outside of the classroom. Backed by our Virtual Learning Campus, which adapts to each student's individual needs, students will receive the highest quality of personalised education.

CUSTOMISED LEARNING

By leveraging our excellent elective syllabus and tutorials throughout their studies, students can have a personalised learning experience. This includes learning new study skills, academic English, English language skills for business, and more.

2

CONTINUOUS LEARNING

Through our extensive social programme, students get to meet and mix with their peers in informal, fun environments to practice their English language skills while exploring the local culture. Students can also collaborate in the Study Club to further develop and practice their English language skills in a group setting.

3

FORMAL ASSESSMENTS

Students benefit from continuous practice and formal speaking assessments every two weeks to identify and close any language skills gaps. There are also weekly opportunities to assess if they are ready to move onto the next level. Our educators develop and provide our high-quality assessments, and many of our instructors are IELTS examiners or have developed our English Language Level Test (Oxford ELLT).

4

5

COLLABORATIVE COURSE REVIEW

Students have the opportunity to individually meet with their instructors on a bi-weekly basis to review their progress and performance. As part of our premium service, students also have access to the Director of Studies for additional support and guidance.

LEARNING OUTSIDE THE CLASSROOM

Instructors provide regularly-scheduled tutorials for students to identify English language goals, map out the steps needed to achieve those goals, and check-in on progression. This collaborative peer-to-student approach helps students lead their own learning journey and stay on track.

GRADUATION

Once students complete the programme, they receive official certificates of completion and can choose to take a formal English language test for personal, professional, or educational purposes.

OI ALUMNI PROGRAMME

Just because a student has graduated from our programme, it doesn't mean their journey is over! Not only do we give our students additional access to the Virtual Learning Campus, but they are also invited to join the Oxford International Alumni programme with access to newsletters and events. We love to stay in touch with our students and learn about their continued success!

Learning Doesn't End in the Classroom

We believe some of the most important learning happens outside the classroom. That's why our students enjoy a range of extracurricular activities and excursions, allowing you to explore the rich culture and history of your host city. From guided city tours to social events, these experiences not only provide a deeper understanding of the local community and its traditions, but they also help you enhance your language skills while developing lifelong friendships.

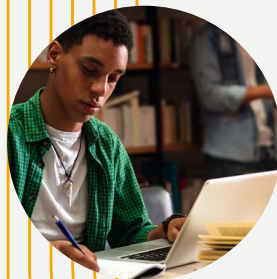

Personalised Learning and Academic Support

Our language courses are designed to provide you with a personalised, supportive, and dynamic learning environment. Whether you are a beginner or an advanced learner, our expert instructors will guide you every step of the way, tailoring their teaching methods to meet your individual needs. Through interactive lessons, engaging activities, group work, and authentic materials, we ensure that you develop the necessary language skills to confidently communicate in English and achieve your language learning goals.

On Course Progression

At Oxford International, academic progression is at the heart of our language schools. We invite you to dive into an enriching student life experience while enjoying exceptional opportunities for advancing your educational journey.

Driving Student Success

Prior to arrival, each student is given access to our Virtual Learning Campus (VLC), an online learning environment that supports students' learning journey outside the classroom and facilitates a hybrid learning environment throughout the course. In addition, students receive a personalised programme, library and book access for each school, and 1:1 tutoring sessions to ensure each student gets the most out of their time with us.

General English

Morning 20/18

Our General English programme is specifically tailored for individuals who are seeking to improve their English skills while enjoying a flexible schedule.

Whether you are a student, professional, or aspiring global citizen, this programme provides you with the perfect opportunity to immerse yourself in an engaging and supportive learning environment.

Each morning (or afternoon where applicable), you will participate in interactive classes and engage in lively discussions, collaborative activities, and various language exercises that develop your listening,

speaking, reading, and writing skills. As an Oxford International student, you will have access to a range of comprehensive supplementary resources, including digital materials, online platforms, and interactive assessment tools. These resources will support your independent study and allow you to deepen your learning outside the classroom, ensuring maximum progression during your time with us.

Take Your English Language Journey to the Next Level

You can enhance your language learning experience by combining a morning General English course with specialised electives that align with your interests and goals.

-  **Semi-Intensive 26:** General English + 6 lessons of electives per week.
-  **Intensive 30:** General English + 10 lessons of electives per week.
-  **Intensive 40:** General English + 20 lessons of electives per week.

This unique pairing empowers students to strengthen their English foundation while diving into specific areas that align with their academic or professional aspirations. By tailoring your studies, you can truly excel in your chosen fields while mastering the English language.

Through our carefully crafted curriculum, you will embark on a dynamic language journey led by our expert instructors.

Specialised Electives

Our specialised electives are designed to focus on key skills to help further your language development in specific subject areas or give you additional opportunities to practice with confidence. You can easily add electives to your General English studies to personalize your language learning journey.

During the elective lessons, each school will offer a selection of different themed lessons to cover a variety of levels and students will be able to choose from these to match their interests and learning goals.

In addition to the electives listed below, you may have the option to pick additional electives depending on student demand and availability. These electives range in topics and may include:

- Global Leadership
- English for Creative Writing
- English for International Law
- English for Journalism
- English for Projects and Cooperation
- English + Robotics
- English in a Local Context

*Please note, the elective options may vary according to the location, and we cannot guarantee which electives will be running during your time with us.

If you are booking as part of a **Year-Round Group**, you may put in a special request to have one of the specialised electives listed above made available to your group, or you can also put in a special request for another topic not listed above to be taught, such as English for Healthcare, English for Hospitality, and more!
