A Message from Our CEO

Opening doors to education, opportunity, and a more connected world

At Oxford International, we believe in learning without limits. Education has the power to cross borders, bring people together, and create opportunities for individuals from every background.

Our work is guided by ambition, warmth, integrity, creativity, and genuine care. These values shape the way we support our students, work with our educational agent partners, and collaborate with schools, universities, organisations, governments, and communities worldwide.

Global English language education is constantly evolving, and so are we. With the development of new programmes, innovative teaching approaches, engaging student experiences, and a growing network of schools, we are helping English learners build the skills and confidence they need for today's world.

To our students, we encourage you to think boldly, embrace every opportunity, and believe in what you can achieve. To our educational agent partners, thank you for your trust, dedication, and continued commitment to helping students transform their futures.

Our goal is simple: to make a positive, meaningful, and lasting impact on global education. And we're proud to say that we're just getting started.

Lil Bremermann-Richard

Where We Are

The OI Promise

Our commitment to making every student feel welcomed, supported, and valued. From the first conversation to graduation day, we deliver personal care, excellent learning experiences, and exceptional service at every step along the student journey.

Orientation Day

From day one, students are welcomed by the school team, introduced to their teacher, and guided around the school and local area with a dedicated walking tour. They complete a placement test (pre-arrival or on day one) to confirm their English level, as well as explore the activities and services available.

A Personalised Study Plan

Regular feedback helps students understand their strengths, identify areas for improvement, and build confidence as independent learners. The National Geographic Learning Spark platform provides additional personalised learning and practice.

Learning Tailored to Individual Goals

Students can customise their studies through a range of specialist electives, including Academic English, Business English, Study Skills, and focused language development, depending of their level of english.

Regular Progress Assessments

Speaking assessments every two weeks and weekly level checks help students track their progress and address any language gaps. Our assessments are developed by experienced educators, including IELTS examiners and contributors to the Oxford ELLT.

English Beyond the Classroom

Social activities, local excursions and Study Club sessions give students more opportunities to practise English, meet new people, and explore their study city.

One-to-One Progress Reviews

Students meet individually with their teacher every two weeks to review their performance, celebrate progress, and agree on their next steps. Additional academic guidance is also available from the Director of Studies.

Support to Stay on Track

Regular tutorials help students set clear language goals, create an action plan, and monitor their progress. This encourages students to take an active role in their learning and remain focused on their ambitions.

Graduation and Next Steps

At the end of their programme, students receive an official certificate of completion and celebrate with their peers. They may also choose to further their studies to support their academic, professional, and personal goals.

Our Learning Philosophy

Learn English Without Limits

We focus on three key pillars to ensure that our students are supported and have the tools they need to learn how to use English in meaningful ways in their lives.

World Class Learning

Students experience premium academic quality with real-world outcomes through a modern, high-impact learning system designed to deliver real English for real-world success:

- ✔ Trusted global quality with 35+ years of experience delivering high-quality English programmes.
- ✔ Engaging, modern learning experience through National Geographic Learning curriculum and the SPARK digital platform delivers interactive, media-rich lessons.
- ✔ A blended learning model with in-class teaching and self-study alongside progress tracking and interactive content.
- ✔ A proven learning methodology (Production, Reception, Mediation) focuses on developing English skills for real-world communication.
- ✔ Our courses and extracurriculars focus on improving career and academic outcomes while developing real-world skills beyond the English classroom.
- ✔ Highly qualified educators with varied backgrounds, diverse teaching experiences, and a passion for student success.

Precision Personalisation

Our programmes offer structured, individual learning that delivers measurable progress through a carefully-designed student journey with support at every stage:

- ✔ Personalised learning that delivers results through tailored study plans based on individual goals.
- ✔ Structured learning journey from pre-arrival support and weekly 1:1 check-ins to continuous progress tracking and post-program support.
- ✔ Close academic support with ongoing feedback to maximise progress.
- ✔ Perfectly sized schools are designed for individual attention and meaningful student-teacher relationships.
- ✔ A home-away-from-home experience where our students are never just a number.
- ✔ 95% student satisfaction rate demonstrates our students enjoy learning and growing with us.

Students in Oxford

We meet and exceed the educational standards required for independent schools globally

Complete English Immersion

Students benefit from a complete experience inside and outside the classroom that combines learning, living, and cultural discovery:

- ✔ Full student experience beyond the classroom where learning extends into daily life, social activities, and community engagement.
- ✔ Our in-house accommodation network offers trusted host families and residences built over 35+ years.
- ✔ Direct accommodation support is managed in-house, ensuring quality and student safety.
- ✔ Lively social programme with daily activities, tours, and events across major destinations for learning that extends beyond the classroom.

80+ nationalities offer students a truly global learning experience

Students in Toronto

Our Proven Learning Methodology

Our approach to developing English skills offers a modern twist on the most effective language proficiency methods.

Production

Students learn how to speak English and communicate in any context that's required.

Reception

Students learn how to receive language, comprehend it, and take meaningful action.

Mediation

Students learn how to have back-and-forth conversations where they can produce, understand, and respond to language.

Scale of Language Proficiency

Our Scale of Language Proficiency is an accurate reference to many other popular language proficiency tests around the world.

This framework helps students understand their individual skill levels so they can effectively communicate with their teachers regarding their learning objectives. It also guides our staff so they can help students achieve their desired goals.

How students progress
Students progress at their own pace

How long does it take to move up a level?
We follow the Common European Framework (CEFR) as reference. The number of hours and weeks of study to complete each level varies according to the level. Higher levels take longer to complete compared to initial levels, as the language complexity increases.

How quickly students progress depends on a variety of factors, including:

- Class attendance
- Classroom performance
- Progress test results
- Homework & self-study
- Practice outside the classroom

Innovative English Curriculum

In partnership with National Geographic Learning, our innovative curriculum brings the classroom to life through high-quality, engaging course material and digital tools that help learners develop global competencies and skills to actively take part in the world. Every Oxford International English Schools student gets their own National Geographic Learning student book and access to the SPARK online platform!

English for the Students of Tomorrow
